Importance:	High

Nate,

Attached are scanned copies of the SW-AW and two matrixes I provided you tonight in hardcopy. SW/Ramey warrants are judged signed and ready to go.

Josh Yee is primary and Scott is the best DB supervisor contact if more details are needed. Trevor is in the loop, but does not have all the intimate details as this is a VCU case.

We would want to serve this next week sometime and at least one of them has been surveilled as a passenger in a vehicle with grandma on a pretty regular basis making T-stop rollback a viable option for at least the one.

Let me know if you have any questions.

Thanks,
Danny
